

### Conversion of military brownfields: processes and perspectives of the project F.A.T.E. - From Army To Entrepreneurship - á interviews taken from Euroregione News

- *Joao Nunes*, architect.

Military brown-fields as urban blanks; attention not to fill empty spaces with the same blurred surrounding urban space, resisting to temptation of building all empty spaces and of borrowing all pre-existing signs; problem of function changing and caution in transformation; building new relations with signs of the past: á [LISTEN TO \(04:42\)](#)

Porto Vecchio area in Trieste [obviously it isn't a military brown-field, but this consideration has been proposed in order to tackle the theme of reutilization of historical buildings]: [LISTEN TO \(01:21\)](#)

- *Francesco Evangelisti*, architect, unit director of city quality department, Municipality of Bologna.

Dismissed sites for urban reutilization; new spaces for services; Bologna example; requalification of buildings of historical value; possibility of maintaining evidence of pre-existing dismissed site: á [LISTEN TO \(03:05\)](#)

- *Luciano Pozzecco*, Director of European Integration, International Relations and Financial Management Unit of FVG region.

Necessity of a broader planning; legislative decree 237/2001 and estates transferred to the Region, Latisana Municipality example: [LISTEN TO \(03:30\)](#)

- *Elio De Anna*, FVG Regional Ministry for culture, sport, International and EU relations.

Subsidized construction as possible alternative for reutilization of brown-fields; possibilities given today by FATE projects: á [LISTEN TO \(09:41\)](#)

- *Salvatore Benigno*, Mayor of Latisana.

The experience of the Pilot Action in Latisana Municipality: á [LISTEN TO \(08:52\)](#)

- *Rossella Gerbini*, Biennale Portovecchio Association.

The peculiarity of the place hosting the conference: á [LISTEN TO \(05:58\)](#)

- *Manuela Fischanger*, European Integration Unit, International relations and Financial management of FVG region.

FATE project, FATE approach and realized activities: [á LISTEN TO \(08:44\)](#)

- *Piero Pedrocco*, Udine University, Architecture and Civil Engineering Department.  
Necessity of a systemic vision rather than of single interventions: [á LISTEN TO \(08:51\)](#)
  
- *Alessandro Santarossa*, architect - Agata Edroc Association.  
Systemic approach to the reconversion: [á LISTEN TO \(24:49\)](#)
  
- *Francesco Pupillo*, official engineer of the Army.  
Patrimonial assets and dismissed sites: [á LISTEN TO \(14:11\)](#)
  
- *Joao Nunes*, architect.  
International reconversion processes: [á LISTEN TO \(40:41\)](#)
  
- *Francesco Evangelisti*, architect, Unit director *ÔÇô* city quality department of Bologna Municipality.  
Conversion laboratory: [á LISTEN TO \(20:39\)](#)
  
- *Alexandru-Ionut Petrisor*, Urban Incerc Romania (Fate Project Partner).  
A spatial planning approach to the conversion of former military sites into BSC: [á LISTEN TO \[Eng\] \(18:34\)](#)
