

FATE gives the patronage to Agata Edroc activities related to the participation to the "Bienal de Canarias y Observatorio del Paisaje" and the travelling exhibition in Trieste, Gorizia, Udine and Pordenone that will be held in 2012.

Agata Edroc is an association that carries out scientific research and cultural dissemination in the field of the construction's dynamics of contemporary space. In particular Agata Edroc is currently developing a study in the field of the reconversion of former military brownfields, strictly connected to FATE activities and main objective.
